SUMMARY

Flutter Developer with 3.5 years of experience delivering production-grade, cross-platform iOS & Android applications across SaaS, HRMS, healthcare, and real estate domains. Proficient in Dart, Flutter SDK, BLoC, Riverpod, Provider, GetX, Clean Architecture, RESTful API integration, Firebase, and Supabase. Experienced in end-to-end Play Store and App Store deployment, CI/CD automation with Fastlane and GitHub Actions, and Agile development workflows.

EDUCATION

Shivalik College of Engineering, Uttarakhand Technical University
B.Tech in Computer Science Engineering; 71.6%

Dehradun, Uttarakhand
Aug. 2019 – June 2023

EXPERIENCE

Software Developer – Flutter

July 2025 – Present

Mind IT Systems

New Delhi, India

- Led end-to-end development and deployment of **10+ production Flutter apps** on **Play Store** and **App Store**, architected with **BLoC** and **Clean Architecture** for scalability and long-term maintainability.
- Automated CI/CD pipelines using **Fastlane**, **GitHub Actions**, and **Bitrise**, reducing manual release effort by **60%**; managed iOS provisioning profiles and **TestFlight** distribution via Xcode.
- Integrated **RESTful APIs** with .NET, Spring Boot, and Node.js backends; built pixel-perfect responsive UIs following Material Design and Human Interface Guidelines.
- Implemented **Firebase Cloud Messaging (FCM)** for push notifications, improving user re-engagement by **20%**; mentored junior developers and enforced code review standards across a team of 6.

Software Engineer – Android & Flutter

Sept. 2023 – June 2025

E-Alphabits

Ahmedabad, Gujarat

- Developed and launched cross-platform **Flutter** and native **Android (Kotlin)** applications end-to-end, covering full mobile app development lifecycle from design to production deployment.
- Implemented **MVVM architecture** with **Provider** state management, improving scalability, maintainability, and clean separation of concerns across multiple projects.
- Integrated **Supabase** for real-time data sync, authentication, and cloud storage; delivered **Razorpay** payment gateway for subscriptions and in-app bookings.
- Reduced crash-related issues by **30%** through systematic performance profiling, debugging, and targeted optimizations using **Flutter DevTools**.

Android Developer Intern

Jan. 2023 – June 2023

Drish Infotech

Mohali, Punjab

- Built native Android features in **Kotlin** with **Retrofit** RESTful API integration, focusing on performance optimization and UX improvements.

PROJECTS

Interne – SaaS HRMS App | Flutter, Dart, BLoC, Clean Architecture, REST APIs | Play Store, App Store

- Built a multi-tenant SaaS HRMS platform with **Microsoft Azure AD** authentication and tenant-based data isolation, supporting enterprise workforce management at scale.
- Delivered employee profile, attendance tracking, leave management, and document management modules; maintained continuous delivery via **Fastlane** and **GitHub Actions**.

Child Care Application | Flutter, Dart, GetX, Firebase, Razorpay

- Healthcare app featuring diet planning, vaccination tracking, and real-time **audio/video consultations**; integrated **Razorpay** for subscription plans and **FCM** for appointment notifications.
- Improved user retention by **25%** and engagement by **20%** through UX optimization and real-time notification workflows.

Real Estate Broker Network | Flutter, Dart, BLoC, REST APIs, RBAC | Play Store

- Global broker marketplace for property sharing, deal collaboration, and inventory management; implemented **BLoC** architecture and **role-based access control (RBAC)** for secure, scalable multi-user workflows.
- Optimized listing and search UX to improve property discovery and broker engagement across multiple geographies.

TECHNICAL SKILLS

Languages: Dart, Kotlin, Java | **Frameworks & SDKs:** Flutter, Flutter SDK, Android SDK | **State Management:** BLoC, Riverpod, Provider, GetX | **Architecture:** Clean Architecture, MVVM, MVC | **APIs & Backend:** REST APIs, Firebase, Supabase, .NET, Spring Boot, Node.js | **Databases:** Firestore, Supabase (PostgreSQL), SQLite, SharedPreferences | **CI/CD & Deployment:** GitHub Actions, Fastlane, Bitrise, Play Store, App Store, TestFlight | **Tools:** Android Studio, Xcode, VS Code, Git, Postman, Jira, Flutter DevTools | **Integrations:** FCM, Razorpay, Microsoft Azure AD, WebRTC | **Spoken Languages:** English (Professional), Hindi (Native)
